Great to hear this fantastic piece again! The dynamics at the start are too safe for me. ⚠️ into Trbs before ⑬ and ff.

Grasmoor More intonation problems, but there are nice cornet sounds. Some question marks about the balance though.

Grisdall T. Fltn is flat, and the 6/8 is too heavy and not as smooth as it should be, but still not everything is rhythmically clear.

Hysbaks More refinement in articulation please. to get more energy. Well done Sop though. More dynamic contrast is needed.

Gatstye good style, but Trbs intonation is wobbly. Bravo Perc. ^{Sop &}

Ayle The espresso is there, but try to play softer to create a more mysterious/magical atmosphere. Maybe some flow would help as well?

Grisdall B. Bal. in Basses not ideal here, well done Sop again. Sky down in mos. ⑮ needs more bite Cornets. ⚠️ Percussion, don't overdo ff! SD gets louder and louder!

Striding. good energy now, but again intonation in Trbs.

Helvethyn great sound! GOOD FINISH!

Dommer

A performance who had some nice moments but generally suffered from a lack of details, dynamic contrast and poor intonation.

Thanks & All the best
