1. Canille

Vibrant start, not always absolutely together and not always even in rhythm (eg transition 75-83) I could do with more warmth to the sound in the second subject (especially horns) Music moves with energy to close and some good detail is on show (bar 284 is very clean!)

2. Over the Rainbow

Not together on first note! Lovely 'jazz club' tone from flugel and the duet idea works well. The problem is the accompaniment which is just too loud for comfort. Needs to have much more sympathy for soloists I feel. Nevertheless, there's much to admire here - well done.

3. Face Music

Impact to begin and a good tempo. Not all details are heard, but flows nicely to waltz which is well handled. Towards the end the drum kit threatens to overpower - be careful!

4. Letter from Home

The sound is nice to begin, but I note the many accidents! Fortunately this becomes less of an issue and the relaxed style is appreciated. Some good warm sounds now and (a little hesitation in euph 2 aside) the ending is very effective.

5. Washington Grays.

Arresting style to begin - careful in the basses though - I hear too many accidents for comfort! You could try for more detail on single d's (around 54) Good attention to note lengths (especially ds) I would have preferred clash cymbals for a more authentic feel.

SOLIST

Overall - a good, traditional programme and some solid playing but left an 'inconsistent' impression.
